Reaching Your Full Feminine Financial Potential

Understanding the Upper Limits!

Call in Sacred Space

A scenic view of a city skyline across a body of water, with lush greenery in the foreground and middle ground. The city skyline includes several tall buildings, some with distinctive architectural features like pointed tops. The water is calm, reflecting the sky and the buildings. In the foreground, there are various green plants and trees, some with small white flowers. The overall atmosphere is peaceful and natural, contrasting with the urban background.

The great **potential** of the Gene Keys as a teaching is to awaken a powerful new creative impulse inside you, and as you follow this impulse you begin to witness the emergence of your genius.

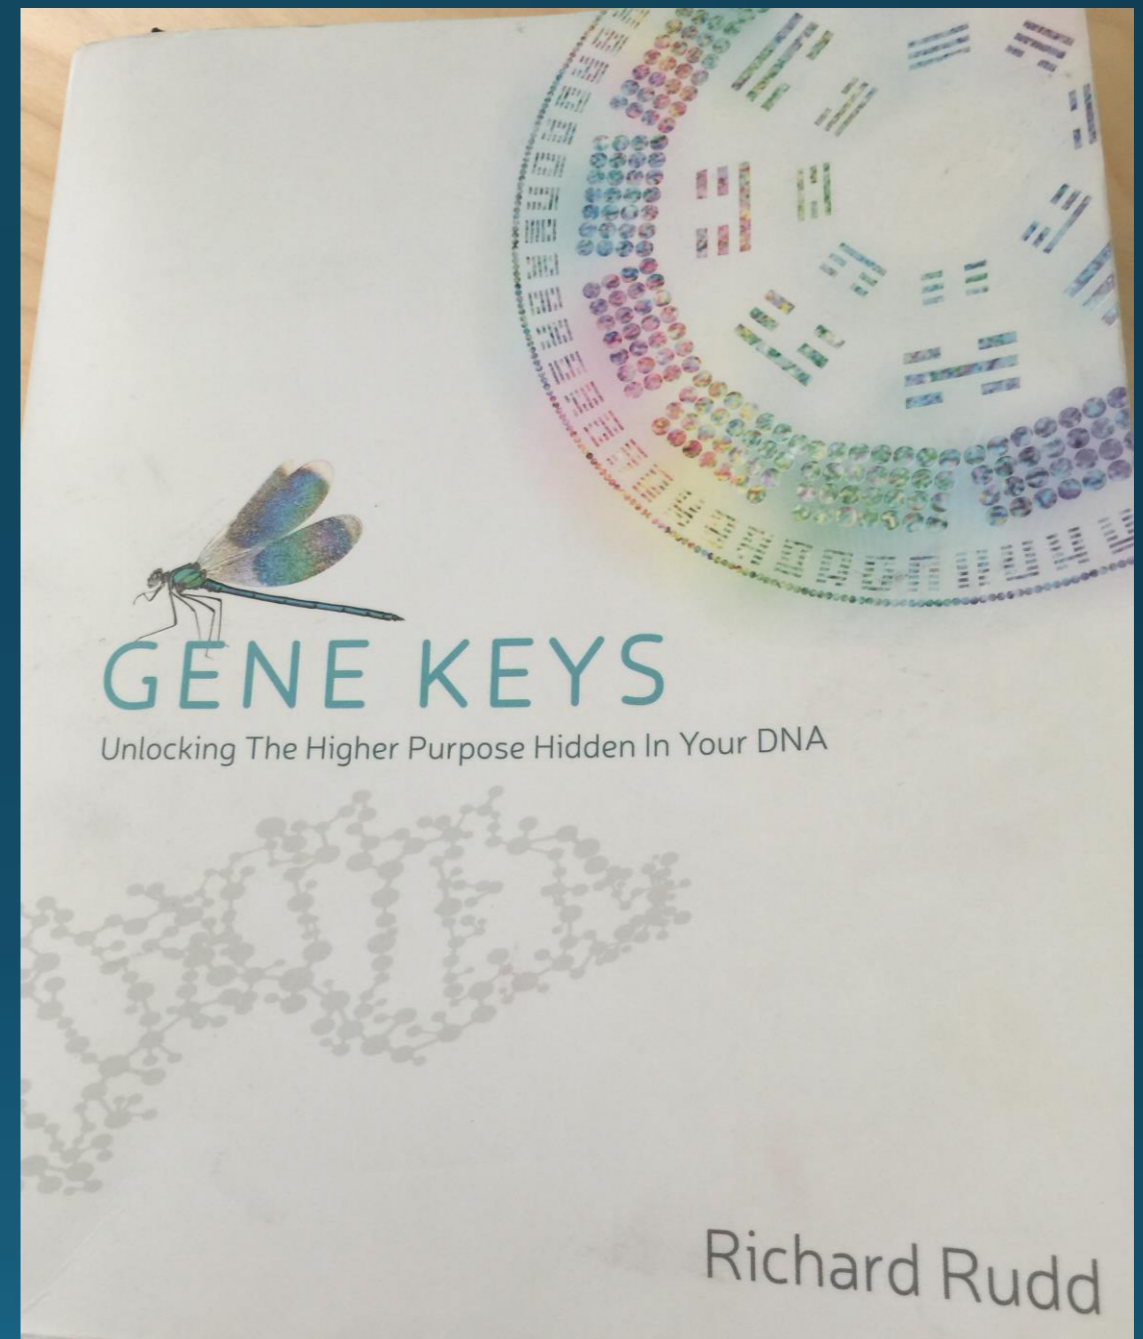

p.xv

As you enter the process of digesting the Gene Keys, begin imaging what your life would look like in your wildest dreams.

Recapture inside yourself a feeling of absolute inner freedom.

p. xxiii

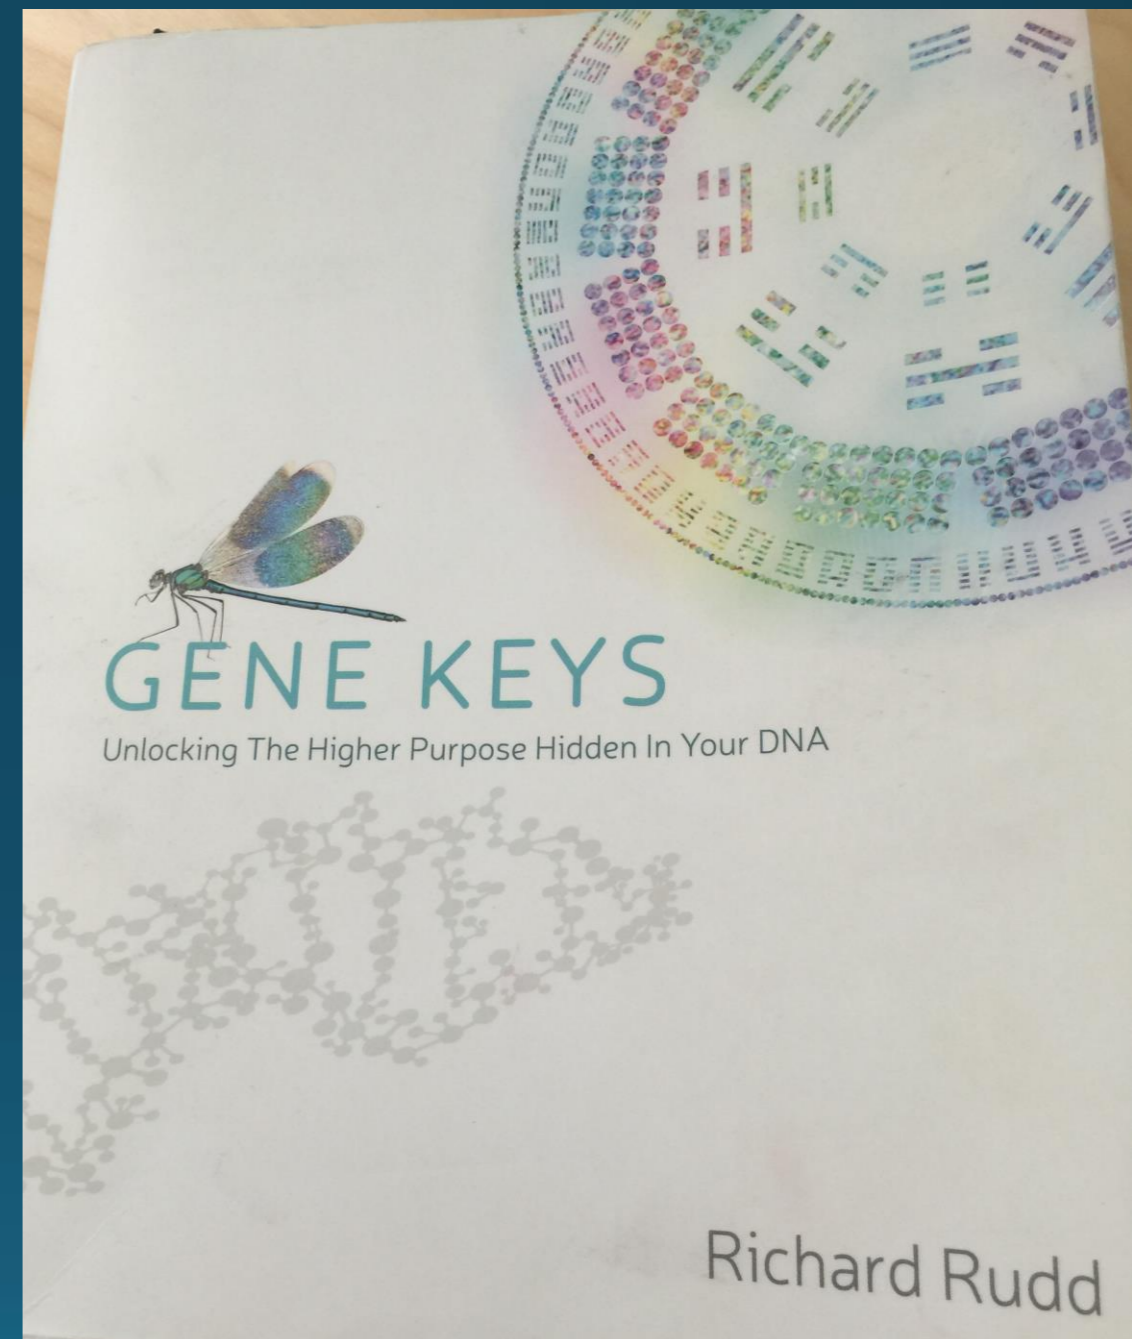

In our hearts, all human beings are natural rebels.

We are wild creatures.

We are not here on earth to have our dreams *tamed*, clipped or domesticated.

We are here to make magic happen and we cannot do that unless our every waking moment is directed and focused towards a single over-reaching vision or ideal.

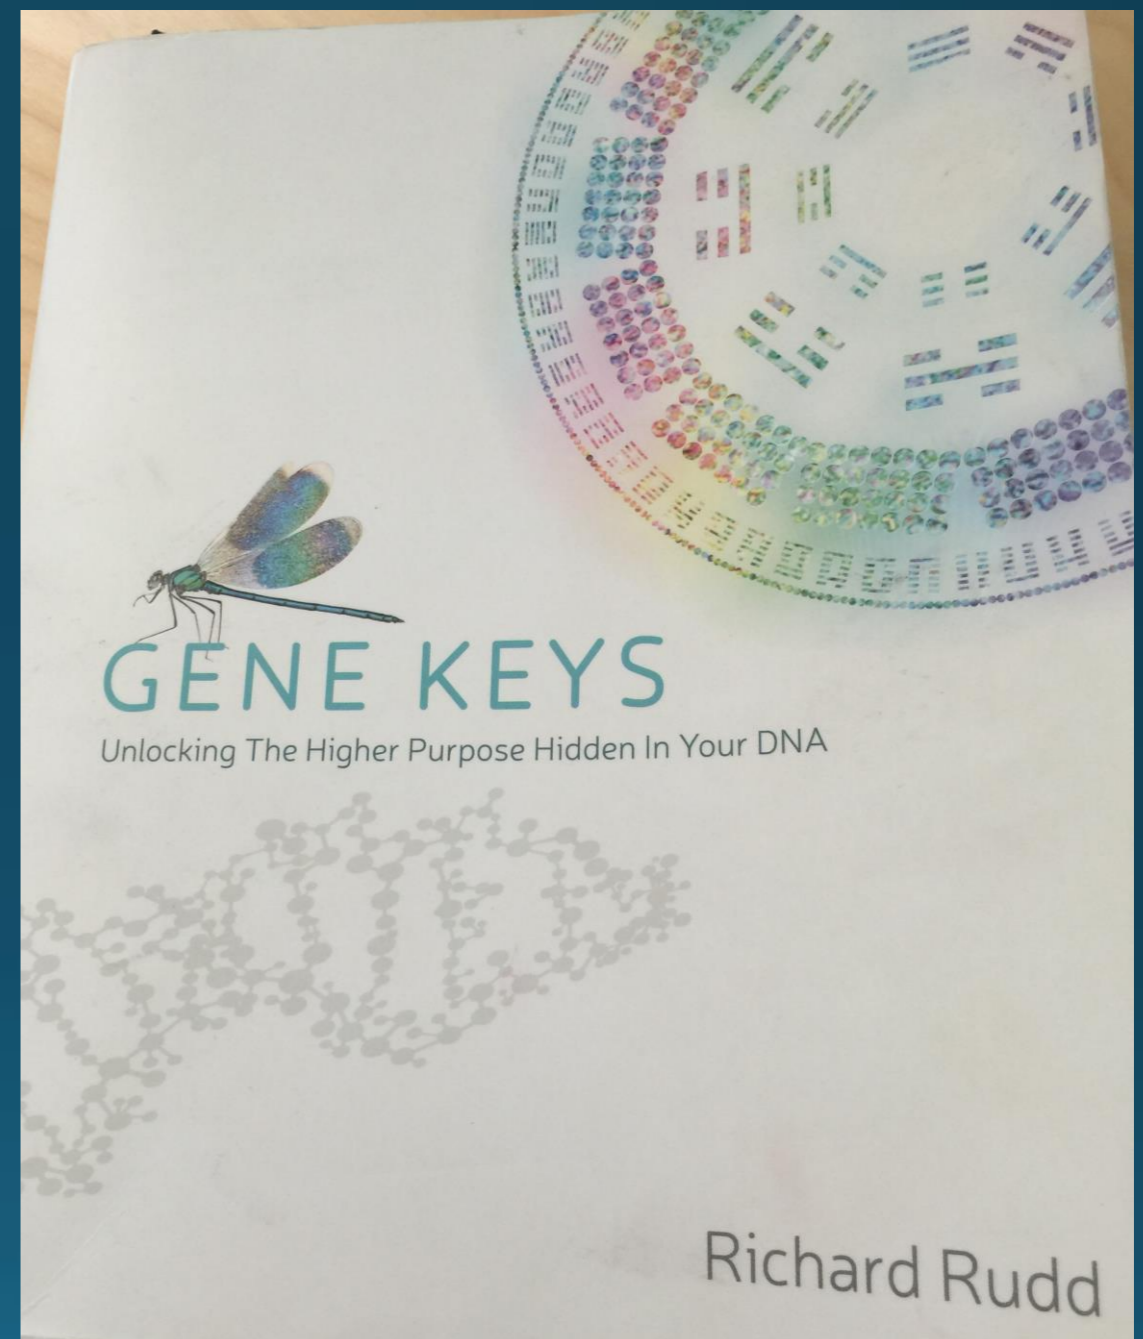

Gene Key 9 p. 60

*There truly is nothing in life
you cannot accomplish if
you put your heart
squarely behind it.*

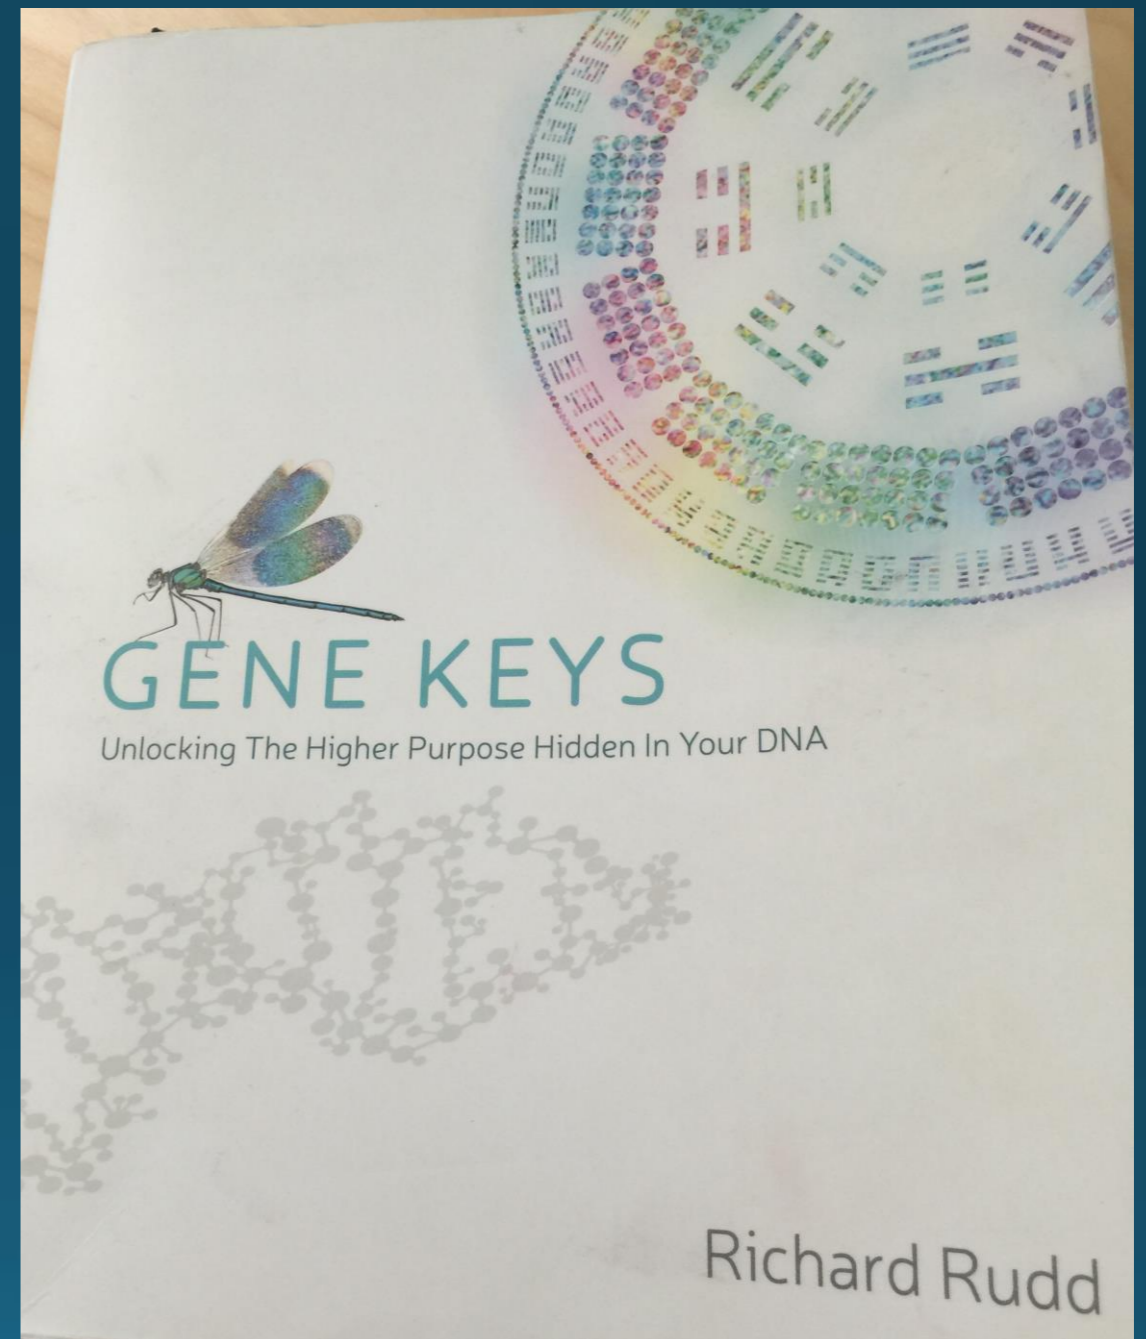

*All those little acts done with
heart begin to build up an
inner momentum that
eventually becomes unstoppable.*

Gene Key 9 p. 61

There will come a time
when humanity will awaken
very quickly to its highest
genetic frequency through
the wavelengths of light
carried by the aura.

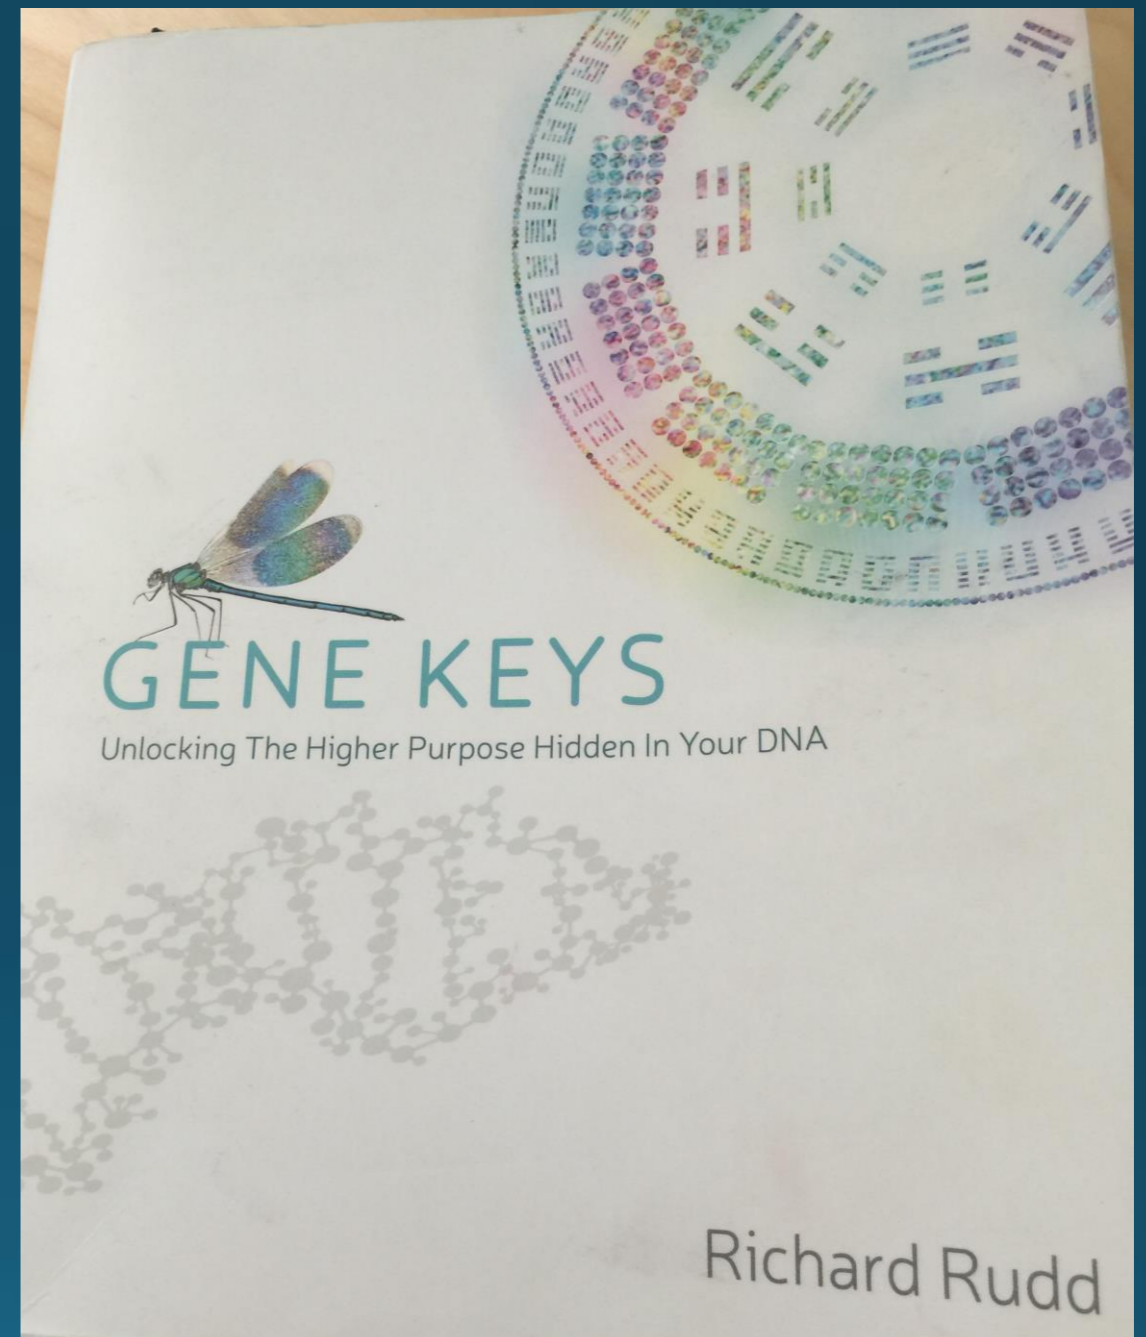

Gene Key 9 p. 64

Every intentional act is a magical act, setting in motion either a force of creativity or a force of decay.

You must capture the energy of your dream and hold onto it deep inside, because it is that dream that will act as the lens to focus the power of magic and manifestation in your life.

Gene Key 9 p. 64

How to fully express your creation energy.

- Open for every area of your life to be creative (co-creation with partner, lifestyle, business, daily life, cooking, dressing, financial world)
- Focus
- Use Your Right Brain & Left Brain
- Access Creative Ideas
- Put in down in writing time frame and step-by-step process of coming into form

Creative Ideas

Millions of Ideas Like
Millions of Sperm

- Which idea baby do you want to have
- Don't try to have all your idea babies
- Which ones fit where you choose to go
- and have substance in the realm of creation

Managing Your Creative Ideas

- Do them one at a time and be strategic
- Ask... what will make the biggest difference for my life or business right now...
- Think Practically...what will bring in income now?
- Know they can not all come into form

Connect to the Bottom Line of What You Want to Create
Find a way to write them down and keep up with them

- *Align with Nature's living field of creation before you make your final decisions on the direction you want to go.*
- *Allow your visions to come to you after that alignment (removes all ego based creations)*

Important Profitable Priestess Expansion Components:

Upper Limits
Newtonian Time Trap
Your Zone of Genius

The Upper Limit is our tendency to sabotage ourselves by when we move up to a higher level in life where things are going well - we are happier, we're making more money, we're feeling more love - we will often do something to mess up and bring ourselves back down to a lower level of positive energy.

That's what I call the Upper Limit Problem because all of us have it in there to a certain extent and what we need to do is move ourselves through that Upper Limit so that we can live in that Zone of Genius.

~ [Gay Hendricks](#)

“Your capacity expands in small increments each time you consciously let yourself enjoy the money you have, the love you feel, and the creativity you are expressing in the world. As that capacity for enjoyment expands, so does your financial abundance, the love you feel, and the creativity you express.”

~ Gay Hendricks, The Big Leap

Common Upper Limit Behaviors

- *Worrying*
- *Blame & criticism*
- *Getting sick or hurt*
- *Squabbling*
- *Hiding significant feelings*
- *Not keeping agreements*
- *Not speaking significant truths to relevant people*
- *Deflecting (Brushing off compliments is a good example of deflecting)*

YOU HAVE TO ALLOW IT IN!

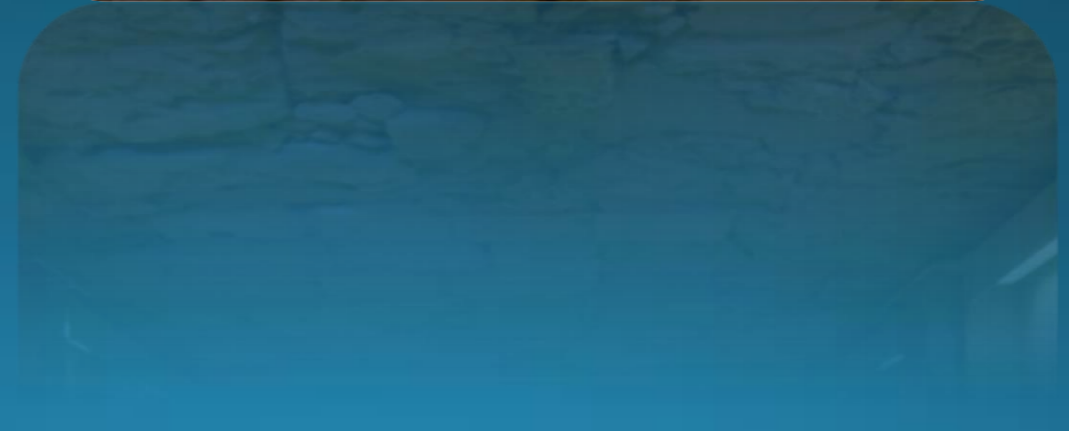

Consciously let yourself make more room in your awareness for abundance, love, and success. Use the resources of your whole being, not just your mind. For example, feel more love in your chest and heart area. Savor the body feeling, as well as the mental satisfaction, of success and abundance. P.112
