**“There is a thinking stuff from which all things are made, and which, in its original state, permeates, penetrates, and fills the interspaces of the universe.**

**A thought in this substance produces the thing that is imaged by the thought.**

**A person can form things in her\* thought, and by impressing her\* thought upon the formless substance, can cause the thing she\* thinks about to be created. ”**

**Wallace Wattles,  
The Science of Getting Rich**

**‘Thought is the impelling force which causes the creative power to act.**

**Thought is the only power which can produce tangible riches from the formless substance. The stuff from which all things are made is a substance which thinks. A thought of form in this substance produces the form.**

**Original substance moves according to its thoughts. Every form and process you see in nature is the visible expression of a thought in the original substance.**

**Wallace Wattles, The Science of Getting Rich**

The sun is low on the horizon, creating a strong backlight effect. The person's reflection is visible in the wet sand in the foreground.
