

Extraordinary Soul Mystery School

Review and Preparation for Sky Teachings

Module 22

So as we look back over our time together, we began by looking at who you are at Soul level in your Akashic record reading. This gave us a snapshot of your Soul when we started.

Then we anchored in the basic teachings of this planet. These have been anchored within you through ceremony. They are now a part of your consciousness now.

When you visit a new place whether it is a home and neighborhood, a town, or a planet, there are certain things that you want to do there. You want to get a lay of the land...you want to get to know the people that live there...that were there before you. You take the time and space to get to know them. You try to learn from them so you, yourself can know how to function and be in that space, so as not to upset the balance that was there before you came. This is especially true in physical planets and experiences. Maya is the ultimate teacher in that she literally lets you see in the “outside physical world” what is going on in your inside world.

The path you have been on for the past 6-month has laid the foundation for you to become HUMAN...a Divine Human: one who knows how to manage their physical world because they have managed their inner world. This is not a one and done proposition. There will always be more dances and more adjustments to be made. But anchoring in this Wheel in ceremony has insured that you have that foundation.

And now you have a tool that can gradually shift your consciousness when shift is necessary. There will be more StarMaiden dances made available to you both in this class, as well as after it is complete.

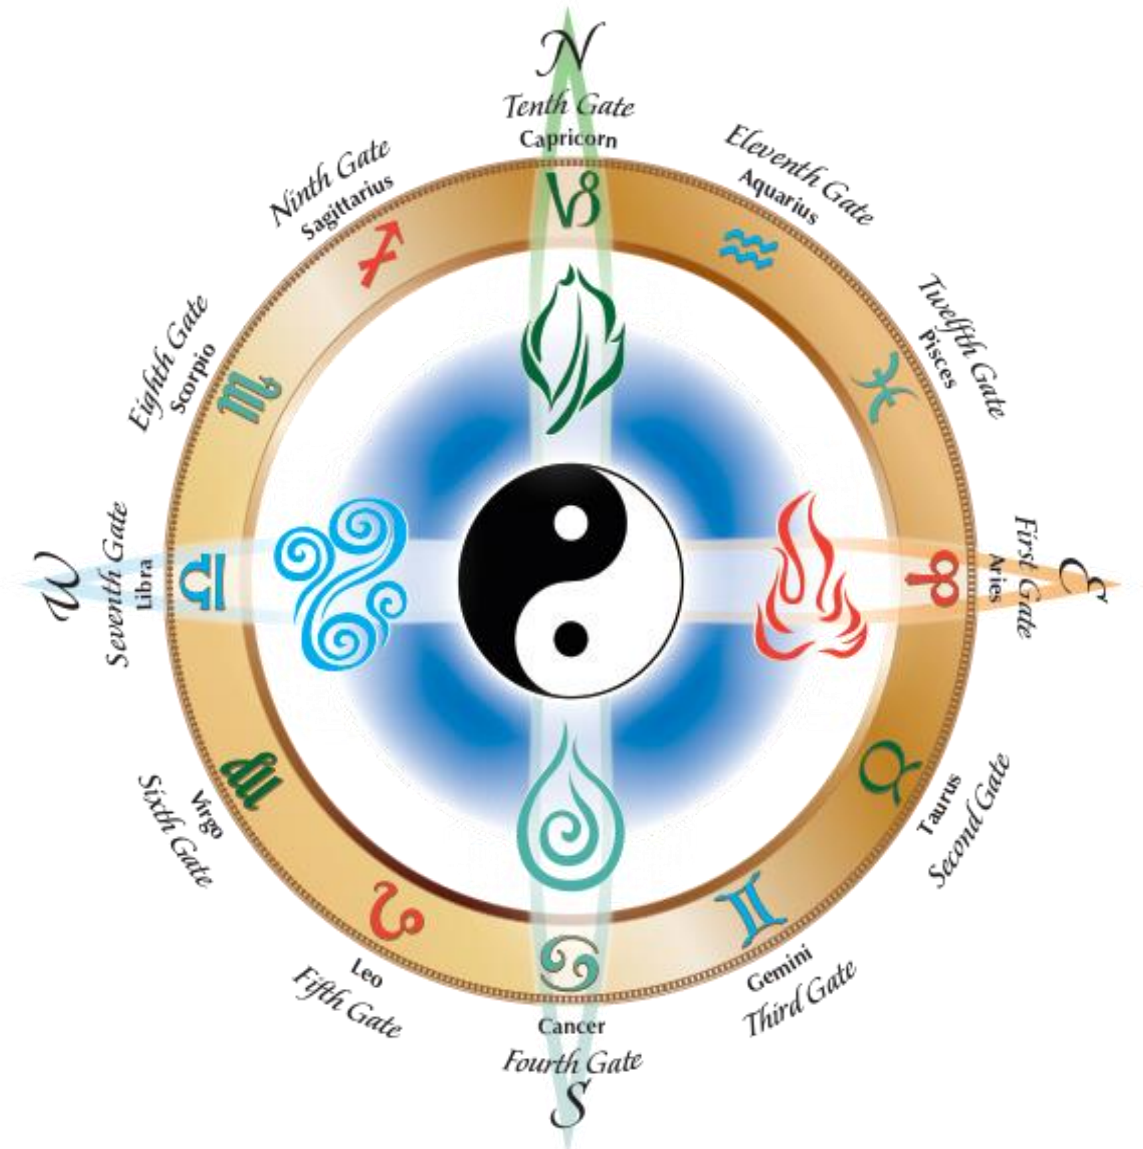

Other practices to keep these teachings alive within you:

- Sitting in your Birth Sitting place or your new sitting place. Even opening your wheel regularly and sitting in it anywhere, is always going to keep the teaching alive and fresh within you because the wheel is alive.
- Work with your Shield. Pull it out if you have it and look at it. All these totems are your specific teachers. Working with them is going to give you new and enlightened insight on everything we are getting ready to do next.
- Pay special attention to your birth totem (your south door) and your North Door Totem. Consider your North Door totem to be like your earth ascending sign. You are growing up in this life time from your birth totem to your north door totem. It is interesting to notice this and consider where you are in this process.

All of this is going to get you ready as we move from the Wheel that teaches us about the Earth to the Wheel that teaches us about the Stars. With the foundation of knowing how the energy operates on us from the Earth's perspective, from being really grounded in that Earth process, we can layer in "how the planets impinge and influence us. Then we can work to see the big picture of our lives.

The Akashic Record has given us the picture of our Soul. The Divine Human Wheel has given us the perspective of the "physical field of energy we have been planted in." Now we are going to move to the map that gives us the outline of what we had planned specifically for this lifetime.

Astrological Gates

I want you to remember that up to this point, all of our teachers have been EARTH TEACHERS, beings that live on this planet. That is for good reason. If we are visitors here from another dimension, it is important we learn how to live here from beings that already do. Taking your perspective of yourself at the level of your soul, and immediately connecting that essence to the Earth Mother, through ceremony in a Medicine Wheel, is a very effective way, to give you a perspective from this plane: the physical plane. We simply have to start here. This has to be our foundation. If it is not, then nothing we try to accomplish on this plane will create lasting change. We have to be IN ALIGNMENT with Her, first and foremost. I will be continually reminding you to check in with your totems and we go through this next phase to see how you can blend these energies, rather than keeping them separate.
